* This weight exceeds the current category and automatically moves to a higher category.

† Meter/Ceadúnas discounts are applied to the Standard Post rate for Letters, Large Envelopes and Packets as shown here.

Δ This weight exceeds the current category size, see International Courier.

International Courier Service, in conjunction with DHL, is available from selected Post Offices. See anpost.ie/internationalcourier for more details.

◇ Delivery to selected destinations only, please see anpost.ie for more details or ask at your local Post Office.

Post Mail Sizes

Letter/Postcard

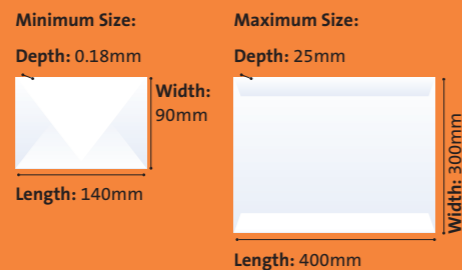

No larger than C5 (holds an A4 sheet of standard paper folded), weighing no more than 100g. Heavier or larger items may be classed as a large envelope, packet or parcel. The minimum sized envelope that can be used is 90mm x 140mm (W x L). Any item below this size needs to be inserted into an envelope of at least these dimensions to meet regulations. Failure to do so may result in the item being charged at a parcel rate.

*PostAim Mail: Maximum depth is 7mm

Large Envelope

The Large Envelope rate of postage caters for flat items, such as an A4 sheet of standard paper, no larger than the maximum dimensions shown and weighing no more than 500g. Heavier or larger items may be classed as a packet or parcel.

Packet

Weighing no more than 2kg and within the dimensions shown. Heavier or larger items will be classed as a parcel.

Maximum Dimensions:

Tube – Length plus twice the diameter, no greater than 1,040mm – no one dimension exceeding 900mm.

Other – Length plus width plus depth, no more than 900mm with no dimension exceeding 600mm.

Parcel

Weighing no more than 20kg and within the dimensions shown. Large items with a light overall weight will be charged according to their dimensional weight due to the cost of transporting light but sizable items. Calculate the dimensional weight and compare this to its physical weight. The greater weight of the two is used to work out the price.

Maximum dimensions:

Length: 1.5 metres

Length + Girth: 3 metres

To calculate Girth: 2 x (Depth + Width)

Calculate the dimensional weight:

$$\frac{(L \times W \times D)}{6,000}$$

L = Length in centimetres
W = Width in centimetres
D = Depth in centimetres

Universal Services (USO)

Universal Services are specified in the Communications Regulation (Universal Postal Service) Regulations 2012, S.I.280 of 2012 and identified as 'USO' in this publication. See anpost.ie for the terms and conditions for these services.
